Integration among Organizations service in change project area

Challenges

- Through communicating several times to them it has been possible to make them present in our meetings.
- Marginalized people are very busy for their livelihood.
- No land tenure ship
- Short time project
- No budget

Strong Side

- Good Coordination with country team.
- So much supportive and active roll of national facilitator
- Got strong support from organization about the initiative of change project.
- Mayor of Khulna city corporation has given assurance about his positive support.
- Collogue and core team members are inspired about the issue of change project and SUWAS program.

Learning's

- Integration is the main fact for sustainable development.
- After gender training, a noticeable change among the members of CBO's have been found; they have learnt to raise their voice and can regard the value of male & female's equality .
